WILLIAMS CONFESSES

Trusty Tells of Late Jail Delivery in Fulton County.

HE IMPLICATES NIGHT JAILER

Williams, Accused Trusty, Tells of the Escape of John Harper and John Barton from Tower Over a Week Ago in Atlanta.

Atlanta, Ga., February 13.—Joseph Williams, one of the Tower trustees, indicted by the grand jury for aiding in the escape of John Harper and John Barton, over a week ago, has made a confession, in which he implicates very strongly Jailer James Brown, who was also indicted.

According to his statement, he and Brown had all to do with the delivery and John Groves, the other trusty against whom a true bill was returned, is innocent of any crime.

He says that he makes this clean breast of it because his conscience hurt him, and to admit his guilt relieves the torture. Now he throws himself on the mercy of the court.

Williams made his confession on oath, and declares he will swear in court that Brown was a party to the crime, that he first mentioned it and told the two trustees to see Harper and ascertain what they could get out of the job.

The sum of \$75 was paid Williams by Harper, and this was to be divided with Brown, but before the two could get together for the division, Brown left the Tower, and Williams, knowing that he would be searched, went to a toilet room and threw the currency away.

If Williams' statement be true, Jailer Brown deliberately went to sleep so that he could liberate Harper and Barton. The key to the safe was left where he could find it, and he had little trouble in freeing the men as soon as he relieved Groves.

John Harper and John Barton escaped from the Tower on Monday morning, Feb. 8. Harper was brought from Murray county for safekeeping. He was charged with the murder of Sheriff Keith, of Murray, and it is said that he killed another man before he shot the sheriff to death.

Barton is an alleged safe blower. It was on the charge of cracking the safe of the Bank of Sharon, Sharon, Ga., that he was arrested.

Neither fugitive has been authentically heard from since the delivery.

In Bars After 9 o'clock in Montgomery Says Judge.

Montgomery, Ala., Feb. 13.—Judge William H. Thomas, of the Montgomery city court, has ruled that to keep open any place where liquors are stored to admit persons to such place after 9 o'clock at night is a violation of the early barroom closing law and offenders must be indicted.

This will hit hard those restaurant men who have screened off the barroom and kept open the eating house, anticipating that in so doing they were inside the law. A number have been violators in this way in Montgomery, Mobile and in the smaller towns, no doubt, where the hours for closing are earlier. Inquiry on these points has been made by the grand jury and it is now certain that many indictments will be developed.

Ask for Lower Rate.

Washington, Feb. 13.—Attorney Isaac Johnson, of Atlanta, on behalf of the National Association of Theatrical Producing Managers, Tuesday presented to the interstate commerce commission a petition asking the commission to permit common carriers to make a special rate for traveling theatrical companies.

Lincoln's Birthday a Public Holiday.

Washington, D. C., Feb. 13.—Mr. Oliver, of New York, introduced a bill to make Lincoln's birthday a public holiday. If this bill is passed it will be the second instance of the creation of a legal holiday by congress, the other being Labor day.

\$10,000,000 FOR THE SOUTH.

War Claims Committee Reports Important Bill Favorably.

Washington, D. C., Feb. 13.—About \$10,000,000 may be secured from the government by the people of the south if a bill reported unanimously by the house committee on war claims becomes a law.

The bill gives to the court of claims jurisdiction of the claims for abandoned lands and property which was sold during the civil war and the proceeds turned into the United States treasury.

During that war the government authorized the seizure and sale of abandoned land and the net proceeds placed in the United States treasury. There was a provision that if any one should begin suit within two years after the close of the war and prove that the property sold belonged to him, the money received for it should be paid over, but to do this the citizen bringing the suit had to submit loyally to the union.

This disqualified most southerners until the amnesty proclamation was declared in 1866, which came too late to take the claims to court, the two years limit having expired.

The object of this bill is to enable the original owners of the confiscated property to get the money it brought when sold.

SHOT WOMAN THREE TIMES.

Mrs. Martin, of Winder, Ga., Attacked by Negro in Her Kitchen.

Winder, Ga., Feb. 13.—Mrs. C. A. Martin, the wife of a prominent citizen, was shot three times Tuesday by a mulatto who had entered the kitchen asking for something to eat.

When the negro entered the kitchen Mrs. Martin became frightened and tried to leave the room. The negro reached her side before she could escape, however, and seized her in his arms. She put up a desperate fight and managed to escape.

As she was running away from him he drew a revolver from his pocket and fired four shots, three of them taking effect.

The screams of the injured woman attracted the attention of the occupants of Judge Russell's home, and soon medical attention was secured. The physicians state that her injuries are very serious and fears for her recovery are entertained.

A posse of some forty or fifty men was instantly formed, and after getting a description of the assailant from Mrs. Martin, started after him.

ICE-COATED RIVER ABLAZE.

Peculiar Spectacle Caused by Burning Oil at Brooklyn, N. Y.

New York, Feb. 13.—Explosions of cans of oil which were being prepared for shipment in a shed on the pier of the Standard Oil works at the foot of North Twelfth street, Brooklyn, on Wednesday, set fire to and destroyed the shed, pier, and a two-story brick building adjoining it. The building was used as a boxing department. The loss is about \$125,000.

Burning oil from the cans ran through the floor of the pier into the river and spreading among the drift ice presented the peculiar spectacle of an ice-coated river ablaze.

Bank Looted of \$1,300.

Sulphur Springs, Ark., Feb. 13.—Four men blew open the vault of the Bank of Sulphur Springs and secured over \$1,200 in cash, besides notes and other valuables. The citizens were aroused by two explosions, but by the time officers reached the downtown district the work of the thieves had been completed and four men were seen to mount their horses and ride westward, in which direction the mountains are filled with gorges, and it is believed the men have made good their escape. The bank is wrecked.

Thaw Celebrates Birthday.

Matthew, N. Y., Feb. 13.—At the state hospital Wednesday, Harry K. Thaw celebrated the thirty-seventh anniversary of his birth. Mrs. Evelyn Thaw paid her husband a visit. On the way from the station to the hospital Mrs. Thaw purchased a bouquet of flowers, which she took to her husband. He seemed delighted with the gift.

WOMAN GOES FREE

Mrs. McDonald, Charged With Killing Guerin, Acquitted.

JURY WAS OUT SIX HOURS

Trial Has Attracted Attention All Over the Country—Defendant Was Widow of Michael McDonald, Former Chicago Political Leader.

Chicago, Feb. 13.—Mrs. Dora McDonald, who has been on trial here since Jan. 20 on the charge of murdering Webster Guerin, was acquitted by a jury in the criminal court.

The verdict was reached after six and a half hours' deliberation.

The defendant, who is the widow of Michael C. McDonald, formerly a political leader in Chicago, received the verdict without emotion. During the trial she had frequently collapsed and on several occasions the case had been interrupted in order that she might receive medical attention. She was the least moved of any person concerned in the defense, her attendant being so overcome that Mrs. McDonald was compelled to exchange roles with her and try to quiet the woman.

After Mrs. McDonald had been discharged, she was taken to a hotel by relatives.

Webster Guerin was shot and killed in his studio in the Omaha building, LaSalle and Van Buren streets, Feb. 21, 1907.

Mrs. McDonald was alone with him when the tragedy occurred and was immediately arrested and charged with the murder. Her husband and Leopold Freeman, president of the Champion Chemical works, signed bail and bonds for \$50,000 after her indictment on March 30, 1907.

The shock of the tragedy proved disastrous for McDonald, and he died Aug. 9, 1907, after an illness of several weeks. His fortune was left to the accused woman and his two sons, one the child of a former marriage. Special provision was made in his will for Mrs. McDonald's defense, and the instrument was attacked in court by his former wife. The suit is still pending.

It developed at the trial just concluded that Guerin and Mrs. Dora McDonald had been more or less intimate for almost ten years, their relations having begun when Guerin was less than 17 years of age. The state asserted that Guerin had attempted to dissolve these relations and that the woman shot him in a jealous rage.

The defense attacked Guerin's character, asserting that he had systematically blackmailed Mrs. McDonald for years and offered evidence tending to show that he had attacked her in his studio on the day of the tragedy. One of the dramatic incidents of the trial was the acting out of this alleged struggle by two physicians who showed how Mrs. McDonald might have twisted the revolver in Guerin's hand until it pointed at his own breast and how the trigger might have been pulled during the struggle.

To Sail for America.

Tokio, Feb. 13.—Wu Ping Fang, minister from China to Washington, will sail for America Feb. 13, on the Pacific mail liner Siberia, accompanied by thirty-two students. He spent two days at Yokohama. During his stay here he called at the American embassy and had a long talk with Minister Thomas J. O'Brien. He was entertained at a luncheon given by H. B. Miller, the American consul general, at which Minister O'Brien and other officials were present.

Report Not Confirmed.

Paris, Feb. 13.—It has not been possible to obtain confirmation of the report current here that the Japanese government is trying to float a loan in Paris through the Banque de Paris et des Pays-Bas. The only statement that the Japanese would make was that nothing was known of the matter and a leading official of the bank in question characterized the assertions that the bank was at present floating a Japanese loan as "entirely incorrect."

ATTEMPTED BLACKMAIL.

Man Who Posed as German Baron Is Sentenced to 20 Years' Servitude.

London, Feb. 13.—Carl Ludwig von Veltheim, a German-born naturalized American, who posed as a baron and was known also as Frank Kurts and Carl Sneiderich Mauritz, was sentenced at the Old Bailey Wednesday to twenty years' penal servitude, having been convicted of attempting to blackmail Solly B. Joel, a wealthy London and South African financier and mine owner out of \$50,000.

Von Veltheim was arrested four months ago in Paris. He has served in the German navy and army, was once in the Bulgarian army, and has had many adventures in Australia, America and Japan. He went to Cape Town in 1897 and the following year shot and killed Wolf Joel, a brother of Solly Joel, at that place. He was arrested and tried but was acquitted. Some years afterward a body recovered from the Thames was identified as Von Veltheim's by his wife, but later the adventurer was discovered serving on the Bechuanaland police.

ATTEMPT TO KILL AMERICANS.

Mexicans Accused of Outrage at Santa Rosa Mine in Sonora.

Tucson, Ariz., Feb. 13.—An attempt to kill every American at the Santa Rosa mine in Sonora, twenty miles to the south of Douglas, was made on Saturday last, when Mexican employed sticks of dynamite under a boarding house, the company store, and the foreman and superintendent's residence.

The hour selected was during the evening meal.

The first explosion was at the boarding house. It was demolished; fifteen men sustaining broken legs and arms, but there were no fatalities.

Thomas Fagin, the foreman and his wife, were in their home, but the dynamite failed to ignite. The superintendent's office was demolished, but he was out of the building.

Governor Torres has been notified, and rurales are already on the scene. Eighteen Mexicans are under arrest at the mine.

FOREIGN OPINION.

Prof. Luzzatti on the Financial Situation in America.

Paris, Feb. 13.—The Corrier de la Sera publishes an article from the pen of Prof. Luigi Luzzatti, former Italian minister of finance, regarding the financial situation in America.

The writer says the United States has demonstrated its incapacity to establish a strong circulating medium, but that the recent message of President Roosevelt to congress is full of dignity in the stand the chief executive takes against the "immoral speculation that is staining the greatest democracy in the world. If President Roosevelt succeeds in founding in the United States a state bank similar to those of Europe," Signor Luzzatti says, "this will do more than anything else to clear the political atmosphere."

PICKED UP IN MID-OCEAN.

Rescue of Captain and Crew of a Wrecked Swedish Bark.

Mobile, Ala. Feb. 13.—A special received here from Scranton, Miss., says:

Captain Hamburg and crew of eleven men of the Swedish bark Norrkoping, 593 tons, bound from Trinidad to Hamburg with asphalt, and which was wrecked at sea, reached this port Tuesday night on the Swedish steamer Orinda. They were picked up in mid-ocean. The Swedish consul at Mobile has been notified.

Captain Hamburg, it is said, made an attempt to board his vessel, but was prevented by sea pirates who took charge of her after he first abandoned her.

Woman Dies From Wound.

New Orleans, La., Feb. 13.—Mrs. Joseph March, who was shot by her husband Monday afternoon, died at the Charity hospital. March, after shooting his wife, killed himself. He was a bookmaker, formerly of Memphis, Tenn., operated either in that capacity or as a bookmaker's clerk at all of the large race tracks in the country. His wife came originally from Buffalo, N. Y.

BOLD BANK ROBBERY

Bandits, Heavily Armed, Terrorize a Missouri Town.

SECURED \$23,000 IN CASH

Wrecked \$9,000 Bank Building With Dynamite, Had Battle with Sheriff's Posse and Then Escaped With Their Booty.

Rich's Mill, Mo., Feb. 13.—Securing \$23,000 in cash after dynamiting and totally wrecking the \$9,000 bank building of the Farmers and Manufacturers' bank in this city, five bandits, heavily armed, terrorized the citizens here early Wednesday morning, and after exchanging shots with the sheriff's posse, escaped to the rough country south of here. No one was injured by either shots or the explosion.

Many persons arrived in time to see the robbers riding away.

Some of the citizens opened fire on the fleeing bandits and the robbers returned the fire.

SOUTHERN IMPROVEMENTS.

Albany, Ga., To Have Big Power Plant—Other Enterprises.

Columbus, Ga., Feb. 13.—The Industrial Record among others, mentions the following improvements:

Work on a big \$1,500,000 power plant to be constructed on the Flint river near Albany, Ga., which was temporarily deferred because of the late financial flurry, will begin in a few weeks. A movement was launched for a municipal waterworks system for Greater Birmingham that will cost \$3,000,000. While numbers of construction projects are reported, the most important news comes from Birmingham, where a seventeen-story \$500,000 office building, a fifteen-story steel-frame office building, a \$750,000 twelve-story building, and apartment houses that will cost \$75,000 are reported. Plans are being prepared for these ornate structures and positive announcement as to their erection is made.

The activity of the past week in business, construction and industrial circles is well illustrated by the formation of thirty new corporations, with a total minimum capital stock of \$443,000.

EDISON'S 61st BIRTHDAY.

Celebrated by Department Heads of the Edison Works.

Newark, N. J., Feb. 13.—The second annual banquet of the heads of departments in the Edison work shops was given here Tuesday night in honor of the sixty-first birthday of Thomas A. Edison. The only toast was the one proposed to "The Old Man."

"The possibilities of the development of electricity are boundless," said Mr. Edison. "Today we have not developed this wonderful agency beyond its primary stage. We cannot now even comprehend its definite possibilities. I have done little in comparison with what the wonderful future holds."

"Two hundred years from today the inhabitants of this planet will regard the achievements of the present day in electricity as the mere beginning of a master science."

Will Inspect Troops.

Atlanta, Feb. 13.—The United States war department has designated Major George F. Landers, of the coast artillery corps, now in command of Fort Moultrie, S. C., to conduct the inspection of the national guard of Georgia, and notice to this effect was received by Adjutant General A. J. Scott. Major Landers will begin these inspections in Atlanta, with the commands of the Fifth Infantry on Feb. 26. It will require two months to complete the work.

"Billy Bates" Paroled.

Montgomery, Ala., Feb. 13.—"Billy Bates," the girl who dressed as a boy and went up from Houston county to the mines after conviction of riding on trains unlawfully, has been paroled by Governor Comer, along with Joseph Bates, her brother.

OPERA HOUSE FOR GAINESVILLE AT LAST

E. Baird Will Install an Up-to-Date Play House Here.

EXTENSIVE PLACE IS PLANNED

The New Theater Will Have Inclined Floor and Gallery, Modern Stage and Equipment, and Will be a First-Class Place in Every Way.

After a long and most vigorous appeal from the majority of the citizens of Gainesville for a decent opera house, their demands will now be fulfilled, and E. Baird is due the credit—or will be due the credit—of supplying this demand.

Gainesville is a good town, and has everything good and up-to-date, with the exception of a play-house. For months, realizing the need of such a resort, the people have been clamoring for an opera house, and theatrical people interested in the city have been endeavoring to work up a sentiment which would induce some person who had the funds available to erect one.

E. Baird, senior member of the Baird Hardware Company, one of the largest and most substantial concerns of its kind in the State, has solved the problem, because he has decided to install a play-house which will be equal to anything in the South for a city of the population of Gainesville.

Mr. Baird proposes to convert the present opera house into a thing of beauty, modern in every respect. He will remove the partitions and office rooms on the second floor of the building, turning the entire upstairs into one big room. The ceiling and roof will be raised, an inclined floor with up-to-date opera chairs will be installed, and a gallery—the boy's delight—will also be added. The stage will be enlarged and equipped with all modern theatrical appliances, mechanical and otherwise, and in all the resort will be a credit to this section, and to the city especially.

Mr. Baird has shown his sincerity in the matter by employing an architect to draw the plans, and this architect is expected from Jacksonville today. Several thousand dollars will be expended in giving Gainesville the best opera house of any city the same population in the South.

TEMPLE WAS HELD.

Slayer of J. T. Chester Was Committed to Prison Without Bail.

W. H. Temple, the slayer of J. T. Chester at High Springs a few days ago, and who was brought to this city and placed in jail, has been committed without bail to await the action of the grand jury at the fall term of the circuit court.

The story of this killing is familiar to our readers, as the unfortunate occurrence is yet fresh on the minds of all who have read it. It will be remembered, however, that Temple killed Chester, proprietor of the railroad restaurant at High Springs, in the door of the restaurant, shooting him four or five times.

The defendant, the presence of whom was waived by the court, was given a preliminary hearing in Justice Bexley's court at High Springs Thursday. Attorneys Syd L. Carter and B. A. Thrasher appearing for Temple. After the hearing of testimony and argument of counsel, the defendant was remanded without bail.

DUTTON BANK IMPROVEMENTS.

Workmen Engaged in Making This One of Handsomest in State.

The Dutton Bank, always desirous of keeping up with the times, several months ago contemplated vast improvements in the arrangement of their building, and have now engaged a number of men making these improvements and alterations.

President W. R. Thomas, in speaking of the improvements a day or two ago, stated that the officials proposed to make a place of which the city will be proud. The stairway to the main building has been transferred to the outside, and the space will be utilized by the bank. New and up-to-date furniture and furnishings have been ordered, and altogether the Dutton Bank will be one of the most modernly equipped financial institutions in the State.

THREE CURES OF SEVERE ECZEMA

Michigan Woman Tells of Her Brother's Terrible Suffering with the Disease—Grandchild and Another Baby also Permanently Cured.

CUTICURA REMEDIES PROVED INVALUABLE

"My brother had eczema three different summers. About the same time each summer it came out between his shoulders and down his back, and he said his suffering was terrible. He used different kinds of medicines, but nothing seemed to do him much good. When it came on the third summer, he bought a box of Cuticura Ointment and gave it a faithful trial. Soon he began to feel better and he cured himself entirely with Cuticura and has never been bothered with eczema since. He also used Cuticura to cure a bunch over his eye and a terrible corn which was so bad that he could not wear his shoe. A lady in Indiana heard of how my daughter, Mrs. Miller, had cured her little son of terrible eczema by the Cuticura Remedies. This lady's little one had the eczema so badly that they thought they would lose it. She used Cuticura Soap and Cuticura Ointment and it cured her child entirely, and the disease never came back. Mrs. Sarah E. Lusk, 67 Peckham St., Coldwater, Mich., Aug. 15 and Sept. 2, 1907."

Pleased Large Audience Nightly.

The Murray Comedy Company closed an engagement of seven nights at the Howell Theater on Monday evening, when "Peaceful Valley," a strong rural drama, was presented to a large and representative audience. An unique and amusing feature was the awarding of a pig to the one holding the number drawn. Mr. I. R. Stelts proved the fortunate party.

The Murray attractions are easily the best popular priced productions seen in our city in recent years. The plays are of unusual strength, the cast of characters exceedingly well chosen, while the electrical specialties are of amazing brilliance and particularly pleasing to the eye. The leading lady, Miss Dorothy Smith, is a dramatic artist of clever ability, whose efforts elicit the commendation of all theatergoers. Fred Ellsworth has few peers in his line, and that his work is duly appreciated is putting it mildly. It is with pleasure we note the fact that the company will return here next month for a stay of three nights, giving an entire change of program nightly.—Palatka Times-Herald.

The above company, which is one of the best on the road, will appear at the opera house in this city on February 20, 21 and 22.

Meeting Medical Association.

The regular monthly meeting of the Alachua County Medical Association was held at the office of the secretary, Dr. C. L. Carter, Wednesday evening, and was well attended.

This proved to be one of the most interesting and most profitable meetings ever held by the association, as several interesting cases were presented and discussed.

ALDRICH CURRENCY BILL.

Many Bankers Listen to Debate on Measure in Senate.

Washington, Feb. 13.—Debate on the Aldrich currency bill was begun in the senate Tuesday and was followed with interest by many bankers, who occupied seats in the galleries of New York.

The discussion of the measure was directed chiefly toward the provision for railroad bonds, as a basis of emergency collections, a wide difference of opinion being developed concerning the method that should be adopted in determining the valuation to be given such bonds.

Aldrich Bill is Opposed.

New Orleans, La., Feb. 13.—Resolutions opposing the Aldrich currency bill as now before congress, have been adopted by the New Orleans Clearing House Bank. The bill was declared to be a danger rather than a safeguard, but no substitutes for the Aldrich measure were suggested. Steps were taken to present the action to the Louisiana delegation in congress. There was opposition to the resolution by several of the clearing house members.

TELEGRAPHIC BRIEVITIES.

The bill appropriating \$350,000 for participation by the United States in an international exposition to be held at Tokyo, Japan, in 1912 was passed by the senate.

At the annual meeting of the Southeastern Passenger association, held in the Equitable building, in Atlanta, Chairman Richardson was re-elected for the ensuing year, without opposition.

The commandant of the naval station at Key West reports having received a wireless telegram from the gunboat Marietta saying that her port engine was disabled, when 160 miles from Tampa. The Marietta is proceeding under her starboard engine.

The trial of Raymond Hitchcock, the comedian, is set for Feb. 24, despite the objections of his counsel and the affidavit of a representative of his theatrical manager that Hitchcock has been booked to appear in various parts of the country up to March 6.

TO PROLONG LIFE.

Prevention of Disease Much More Important Than Cure.

"An ounce of prevention is better than a pound of cure" is especially true in stomach troubles.

A few doses of M-I-O-N-A stomach tablets taken at the first warning of coated tongue, flatulence, heartburn, headaches, distress after eating and other symptoms of indigestion, will prevent a chronic case of stomach suffering that may last for years.

These little tablets give strength and tone to the muscular walls of the stomach and intestines, and promote the secretion of gastric juices so that whatever food is taken is naturally digested without pain or distress.

J. W. McCollum & Co have seen so many cures made by M-I-O-N-A that they sell the remedy in 50-cent boxes under a guarantee to refund the money in case it does not cure.

ONLY NECESSARY TO TREAT THE STOMACH

Claim of Central Figure in Recent Controversy Is Novel.

The new theory advanced by L. T. Cooper relative to the human stomach has attracted such widespread attention that the public in cities visited by the young man has been joined by many physicians in a discussion of his beliefs and medicines.

Mr. Cooper says that human health is dependent almost entirely upon the stomach. He says that no disease can be conquered without first alleviating all stomach disorders. He further says that most men and women of this generation are half-sick, owing to degenerate stomachs. And lastly, he claims that his New Discovery medicine will rejuvenate the human stomach in 30 days.

Cooper has been traveling from one city to another, conducting in each what he calls a campaign of education. For the past year he has met the public in the larger cities of the country, and his success has been phenomenal. Thousands of people have flocked to his headquarters wherever he has gone, and the sale of his medicine has been beyond anything of the kind ever before witnessed.

Possibly the most interesting feature of the attention this young man has attracted is what his army of followers, whom he has converted to his beliefs through his medicines, have to say on the subject. The following statements are from two well known residents of Chicago and Boston, respectively, and the enthusiasm of these is characteristic of Cooper's address generally.

Mrs. H. B. Mack, of 3201 State street, Chicago, says: "I have been suffering for 12 years from a combination of stomach troubles, catarrh and constipation. I had a gnawing pain in the pit of my stomach, a sort

of a dull pain that I could not quite understand. Then there was a dull headache, and my mind seemed to be wandering continually. I could not eat, and what little solid food I did eat I could not retain on my stomach. I tried every remedy I could think of, and also tried out a number of patent medicines, but without any apparent result. It was through one of my friends that I heard of Cooper's preparation, and I immediately decided to try some of it. It is two weeks since I took my first dose of it, and I feel like a new woman. The headache seems to have disappeared, and the pain in my stomach along with it. The medicine is worth its weight in gold, and I want to thank Mr. Cooper for what he has done for me."

Mr. Edwin F. Morse, of 25 Oakley street, Dorchester, a suburb of Boston, says: "For three years I had not a well day. My stomach was in frightful shape; the mere thought of food would nauseate me, and I really had a horror of anything to eat. All solid food would cause me extreme indigestion, bloating and gas on my stomach, and nothing tasted right. Some time ago I got some of this Cooper's medicines, about which there is so much talk. I actually feel as well and strong as a boy ever since the first bottle. Every sign of stomach trouble has disappeared, and I have a hearty appetite and eat three square meals; every thing seems to taste good. Anyone who knows what chronic indigestion is can appreciate what this means to me. I consider this the most remarkable medicine I ever heard of."

We sell Mr. Cooper's medicines, and them to be all he claims, —J. W. McCollum & Co.

THE CITY COUNCIL.

Called Meeting, at Which Time Important Resolutions Were Passed.

At the called meeting of the City Council, held Thursday morning for the purpose of receiving the report of the committee appointed to investigate and report on the advisability of changing the location of the proposed Government building, the following report was submitted and accepted:

"To the President and Members of the City Council:

"Your committee to whom was referred the petition of B. F. Hampton, respecting a change in the location of the proposed Government building, respectfully report that they have investigated the matter, and would recommend that the proposal to change the location of the said Government building to a place a few feet west of the present accepted location be accepted; provided, of course, that the said location be acceptable to the Government, and that the city be released from the payment of one hundred and fifty dollars, the additional amount agreed upon at the time the said site was determined on, at the foot of center of East Main street, making the amount due by the city to Hampton & Graham for the streets or street past or around said building a continuance of East Main street, as six hundred dollars, this being the amount originally agreed upon between Messrs. Hampton & Graham and the city; the lot to be 150 feet north and south on East Main street, and 120 feet east and west on Magnolia street.

At this meeting the following report was also received from the committee appointed to investigate the matter of certain property owners asking relief in the matter of street paving, etc.:

"To the President and Members of the City Council:

"Your committee to whom was referred the petition of J. D. Stringfellow et al., asking relief in the matter of street paving, beg leave to report that they have referred the question to the City Attorney, and submit the following resolution:

"Be it Resolved by the City Council of the city of Gainesville, that the Board of Public Works be authorized to collect from the property owners on Liberty street west from Arredondo street to the west line of the Grissome property, against whose property special assessments have been made for the paving of said street, one-third of the actual cost from each abutting property owner for the street abutting said property, so that the property owners on the narrow part of said street shall pay two-thirds of the cost of paving said street according to the actual width. Also, the said property owners to pay all court costs and other fees that have accrued or at-

BIG SUITS ENTERED.

D. E. Godwin is Suing J. L. Medlin for Aggregate of \$20,000.

There has been recently filed two important suits in this county, being two suits of \$10,000 each, where D. E. Godwin is suing J. L. Medlin for assault, etc.

The circumstances are not quite clear in the case, and it is difficult to secure the facts, but it is understood that the cases grew out of an alleged assault upon the person of the plaintiff by the defendant, while the former was employed by J. L. Medlin & Co., naval stores operators at Meredith, Levy county.

Mr. Godwin is a naval stores man of broad experience, and a few months ago went to work under contract with Mr. Medlin. It is stated that the two men had a misunderstanding, and that Mr. Medlin made a personal assault upon the plaintiff in these cases.

REV. CARPENTER PLEASED.

Reverend Gentleman from Vermont Has Bought Property Here.

Rev. William Carpenter of Vermont, a noted Baptist divine of that State, is interested in Florida in general and Gainesville in particular, as is best demonstrated by the fact that he has recently purchased valuable property here, and is thinking seriously of making this his home.

Mr. Carpenter was attracted here on account of the superior educational and religious advantages, and is well pleased here. He left yesterday for Cedar Key, where he will be engaged assisting in a revival for the next few days. He will return to Gainesville soon, and may remain here for the balance of the season, or indefinitely.

"Noble" Home Again.

The old adage, "What's In a Name?" was contradicted a day or two recently, when "Noble," a handsome bulldog belonging to J. U. Manning, and who strayed or was led away two years ago, was restored to his owner of his own volition.

This is a strange, but true story, and goes as evidence that the dog is the most intelligent and loyal of the animal kingdom.

This dog, which is a very fine animal, was very much devoted to his master, but about two years ago he was missed from his home. A thorough search failed to reveal his whereabouts, and Mr. Manning offered a liberal reward for his return, but to no avail.

On Tuesday Mr. Manning was on the streets, and noticed the dog. He immediately recognized him as his long-lost and faithful companion and called his name, when the animal, still faithful, approached him. The warmest reception imaginable followed.

"It is the strangest thing in the world," remarked Mr. Manning, "but I just happened to run against that dog, recognized him, and the recognition was mutual. That's a good dog. He is good because he is a faithful fellow, and I would not take a hundred dollars for getting him back, after an absence of two years."

Mr. Manning says he is not positive, but he thinks the dog had taken up with a colored man a few miles from the city.

DEATH OF MRS. EVANS.

Aged and Highly Respected Lady Passed Away Wednesday Night.

Mrs. Clarissa Jeanette Evans, eighty-eight years of age, died at the home of her son, George B. Evans, Alachua avenue, L., at 10 o'clock Wednesday night, after an illness of the past few months.

Deceased was born in Morganton county, North Carolina, in 1820. She came to Florida in 1868, settling in Gainesville. She was married to C. P. Evans in 1850, eighteen years prior to coming to this section.

Deceased has been for years a member of the Episcopal Church, and up to a few years ago was an active worker for the cause.

Deceased is survived by one son, at the home of whom she died, and to whom the sympathy of the community is extended.

The funeral was held Thursday afternoon at 2 o'clock, Rev. Francis H. Craighill of Holy Trinity church officiating. The service was largely attended, many friends having congregated to pay their last sad respects.

The pall-bearers were Dr. Wm. Porter, James Dalg, James H. Vidal, Robert Wixson, W. W. Hampton and F. X. Miller.

THE PUBLIC LIBRARY.

Number of New Books Have Recently Been Added to List.

The following new books have just been added to the Public Library, and are going like hot cakes:

"Alice for Short," deMorgan; "Aunt Jane of Kentucky," Hall; "The Daughter of Anderson Crow," Metcalfe; "The Fruit of the Tree," Wharton; "The Helpmate," Sinclair; "The Lady of the Decoration," Little; "The Lion's Share," Thanet; "The Lone Star," Lyle; "The New Chronicles of Rebecca," Wiggin; "Satan Sanderson," Rives; "The Shuttle," Burnett; "The Weavers," Parker; "The Traitor," Dixon; "The Younger Set," Chambers.

Annual subscription to the Library is \$2—three months or less, \$1. The Library is open every day except Sunday from 2 to 5 o'clock p. m. The new Library headquarters is Room 2, second floor, new Graham block, corner East Main and Mechanic streets.

A GUEST OF HONOR.

Mrs. H. H. McCreary Will Attend Reception of U. D. C. at Starke.

Mrs. H. H. McCreary expects to leave this morning for Starke, where today she will be the guest of honor at a reception to be given by Joe Wheeler Chapter, United Daughters of the Confederacy, this being the second anniversary of the chapter. Mrs. McCreary, who is a past-president of Kirby-Smith Chapter of this city, is one of the most prominent and most popular Daughters of the State, as she has always manifested a great interest in the work.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the mind of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time. It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germs, which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Are You a Lard Eater?

Half the time when a person feels blue and out of sorts you may take it for granted that he is a victim of the "lard habit." Lard-poked food and good stomachs are never friends for long. Lard food is not healthful food and no ordinary stomach can thoroughly digest it.

Lard comes from the pig-sty; *Cottolene* from the cotton fields of The Sunny South. Lard is greasy, indigestible, and sometimes absolutely harmful; *Cottolene* makes food digestible, nutritious, delicious. *Cottolene* is the perfect shortening and frying medium. It is pure and healthful. It contains not an ounce of hog-fat.

Cottolene is today in use by thousands of housewives who would no more think of going back to lard than they would of reverting to tallow dips for lighting their homes.

Cottolene is one of the products which pure food advocates always endorse.

Probably the first hospital in the country to have a bed specially endowed for the accommodation of victims of automobile accidents, will be the new Garretts Hospital at Philadelphia. Money for the purpose will be raised by the Quaker City Ladies' Motor Club by fairs.

One of the most daring auto rides ever attempted was recently taken by two machinists of Alamosa, Cal., who drove a motor car for the first time through the Petrified Forest of Arizona. In order to cut off 20 miles they drove over a railroad trestle 494 feet long and spanning Diablo Canon at a height of 290 feet. The slightest mishap would have meant death.

As was noted in The Sun a few days ago the Gainesville and Alachua County Hospital Association is asking for assistance in maintaining the hospital. Ferdinand Bayer, secretary of the association, is mailing out circular letters enclosing a postal card for reply as to how much the receiver feels that he can give to so worthy a cause. Let your response be liberal and prompt. The secretary informs us that unless help is forthcoming the association will be forced to abandon the hospital. We do not want to be without the hospital, hence it behooves all to lend what aid they can to the association.

THE FARMERS' INSTITUTE.

The importance to the farmer, horticulturist and stockman of the farmers' institutes, The Sun fears, judging from the small attendance at the recent meeting held in this city, is not yet fully appreciated, but the time will come when these meetings will be full of this class of people, and these industries, which form a part of the backbone of the country, will be greatly enhanced through the practical suggestions gained by them.

The purpose of the farmers' institutes, which are held throughout the State, is to educate the farmer, fruit grower and stockman to something practical and scientific—something, to use the expression, which will cause two blades to grow where only one grew before, and when these points are learned and put into practice, the farmer and the country will be better off.

It is gratifying to note that, of those who did attend the recent meeting here, the great majority were of the energetic, ambitious nature. They appreciated the benefits which might be derived from the advice of such prominent speakers as those in charge of the arrangements induced to come here, and one farmer related to The Sun that it was the most beneficial meeting, of any kind, he had ever attended, because it was intended to assist him in producing more with the same amount of energy and labor, and that he intended to carry out the lines as set down by the various speakers whom he heard.

While Alachua county has a number of progressive and successful men who are farming along what they consider practical lines—and they are practical in comparison to the majority—there is much to be learned at these institutes. Much for the progressive farmer to learn, and all for the fellow who is trudging along in the same old way, working himself and his stock to death, without results more than a scant living.

The Sun is glad to note the interest being manifested by the progressive farmer. We are also glad to note that such stockmen as N. A. Callison and S. H. Gaitskill are taking such a deep interest in that department devoted to cattle-raising, as both these gentlemen have spent large sums of money in fine cattle, in an effort to bring the standard of cattle up to a high class, and through their influence and the influence of other prominent cattle-men, it is reasonable to believe that the scrubby flat-woods cattle will eventually diminish, and in their place will be those of a much higher grade and breeding.

But we should not be discouraged at the poor attendance at the last meeting, for the reason that the institute was held at a season when those most deeply interested were busy preparing their stands for the coming crop.

Prof. P. H. Rolfs and his assistants who have been working faithfully for the success of the institutes throughout the State should be commended for their efforts, which, in the end, are going to prove of great benefit and profit to those who have the energy to attend the meetings and take advantage of the opportunities suggested by men who know their business along practical and scientific lines.

A flurry of excitement was caused in Conon, Ga., the other day when Dr. Bailey, superintendent of the city high school, was horsewhipped by a posse of infuriated ladies. The posse demanded the keys of the building and told the teacher to get out. He asked permission to get his clock and while in the act of removing it from the walls the posse began to use their whips. The police had to be called upon to disperse the ladies and stop the procedure.

COTTON REFUND MONEY.

Hon. Frank Clark is receiving numerous requests from all parts of the country for copies of his speech recently made in the House of Representatives relative to the refunding to the Southern States the money illegally collected as taxes on cotton between the years of 1861 and 1868. In his eloquent address Mr. Clark gave a full history of the situation and discussed most interestingly the question from a constitutional standpoint. He proved beyond a possible doubt that it was an outrage perpetrated only because "might made right."

Mr. Clark is now hard at work in bringing about a favorable sentiment to support a bill which he has introduced, which provides for refunding of \$68,000,000 of cotton tax money, which was, in violation of the Federal Constitution, levied and collected from the Cotton States between the years of 1861 and 1868. The bill further provides that each State shall be pro-rated the amount of money paid to the Government during this period as taxes at the time, provided bona fide claims be presented for this amount so paid. The amount of this fund remaining after the bona fide claims have been paid will be deposited in the treasury of the State.

For forty years has this unchallenged injustice remained as a thorn in the flesh of all Southerners, and an insult to the pride of our fair Southland. In undertaking this work Mr. Clark is to be lauded for his noble purpose and already he is receiving assurance of support from all Southern members, and even among the ranks of the Republicans there is a murmur of approval. Mr. Clark entertains the expectation that he will be able to force this proposed legislation under serious consideration at an early date and believes that it will ultimately be enacted into law.

The State Fair in Tampa is reported to be a grand success in every particular. There are several hundred race-horses in Tampa just now and that part of the program is proving of much interest. Many counties have beautiful exhibits at the Fair, Alachua being well represented by individual exhibits. All visitors to the Fair are being cared for in a most satisfactory manner. Many will attend from Gainesville and from what we can learn they will be well repaid for their trip.

CHRONIC CATARRH

Caused by Run Down Constitutions and Continued Colds—The Best Remedy.

Our changeable climate is very trying to Gainesville people with run-down constitutions. That's why such a large proportion of them suffer from chronic catarrh and pulmonary troubles.

We want to say to every person in Gainesville at this season of the year: Build up your run-down system and your ailments will disappear. For this purpose we have never sold anything in our store equal to the delicious cod liver and iron preparation, Vinol.

Being rich in the elements of life, Vinol tones up the digestive organs, creates a healthy appetite and makes rich red blood. In this natural manner strength is created for every organ in the body, and chronic catarrh and pulmonary troubles are overcome. We ask the aged, weak and run-down people of Gainesville, and those suffering from chronic catarrh and pulmonary troubles to try Vinol. If it does no good we will refund your money.—W. M. C. A. Killer has a banana grove that is a nine-day wonder. It consists, roughly estimated, of one-eighth of an acre, and at present there are more than 200 fine bunches on the plants matured and almost ready for market. Mr. Killer wholesales this fruit readily at a dollar per hundred, and as the bunches easily average 100 "fingers" to the bunch the result is readily obtained. These bananas are grown in damp soil without fertilizer and very little care so that the returns are clear profit.—Fort Pierce Tribune.

The land department of the Florida East Coast railway has placed on exhibition in St. Augustine a fine specimen of what is known as the Trapp Avocado raised in the tropical grove of Mr. W. E. March ten miles south of Miami. This grove contains 300 trees four years old which are now bearing and the fruit is so delicious, and in such great demand, that it brings \$6 per dozen delivered at the depot in Miami. The trees bear during January, February and March, and this fruit is destined to be a great money maker in the Miami section.

Telegraph, Telephone and Car Lines Recovering from Storm's Effects.

Atlanta, Feb. 13.—Street cars began running again Tuesday afternoon at 12:15 o'clock; both the Western Union and the Postal Telegraph companies operated wires from Atlanta to outside cities; seven of the twenty-seven circuits for are lights were in working order, and the incandescent lights were turned on in the residence section of the northern part of the city and in a part of the southern residence section; and Atlanta resumed almost normal conditions after thirty-six hours of freezing paralysis.

General Superintendent G. W. Brise, of the Georgia Railway and Electric company, estimates that the damage to the street car system and the electric lighting departments of this company will amount to \$85,000 and may be more.

The telegraph companies state that there is no way of estimating the damage which has befallen them, nor can it be until the lines are restored to working order again.

FRUSTRATED BY POLICE.

Women Suffragists Attempt to Rush House of Commons.

London, Feb. 13.—A band of militant delegates from the "parliament of women suffragists," which is now in session in London, made a vigorous assault on the house of commons on Tuesday afternoon. Their attempt to rush the doors of the lobby, however, was frustrated by the watchful police, who had a sharp skirmish with the shrieking women, two-score of whom were arrested for disorderly conduct.

The attacking party was trying to deliver to the house of commons a resolution protesting against the "unconstitutional action of the government in refusing a vote to women taxpayers."

The delegates secreted themselves in furniture vans in the vicinity of the building and were thus enabled to get close to the point of attack before being discovered.

Forty-Five-Hour Address.

New York, Feb. 13.—When Charles J. Hughes, Jr., a Denver lawyer, finished his forty-five-hour address before the arbitrators who are hearing the Denver water works case here, he was presented with a black pearl by David Moffat, of Denver, whom he is representing. The pearl is said to be worth \$15,000. Mr. Hughes began his speech last Wednesday and has spoken for several hours every day since.

THE PERFECT WAY

Scores of Florida Citizens Have Learned It.

If you suffer from backache, there is only one way to cure it.

The perfect way is to cure the kidneys.

A bad back means sick kidneys. Neglect it, urinary troubles follow. Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, cigar maker, living at 1311 Ashlet street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time."

For sale by all dealers. Price 25 cents. Foster-McIlhenny Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

HANDSOME GOWNS FOR MATRONS

An Effective Arrangement of Stripes on Silk Voile.

Steel-gray silk voile broadly striped with satin can be made into a rich dress for a middle-aged woman, says The Delineator for January. Two of these broad stripes form an apron front, and, at the sides and back, plaits are brought over the satin stripes which show only as the plaits flare open. Embroidered and beaded bretelles extend to the waistline in front, and slightly below it in the back, beaded fringe finishing the ends.

A gown in semi-princess style is of biscuit-colored broadcloth of chiffon weight, elaborately trimmed with insets of embroidered filet lace exactly matching the broadcloth in tint. The top of the dress is made becoming by soft ruchings and puffings of chiffon; and direct contrast is given by a tiny vest of emerald-green panne velvet beaded with deep-toned pearl beads that shade into the cloth. The shoes and gloves to be worn with the frock are of biscuit-colored suede, and a large hat of emerald-green velvet with drooping plumes completes a charming ensemble.

EXPLOSION IN BLAST FURNACE.

One Killed and Eleven Injured at McKeesport, Pa.

Pittsburg, Pa., Feb. 13.—Thomas O'Toole is dead and eleven other people were burned in a terrific explosion of molten steel at the Monongahela blast furnace of the National Tube company, McKeesport, near here, early Wednesday.

The huge steel plate furnace, 100 feet in height, burst at the top hole and fifty tons of liquid metal dropped to the floor, accompanied by explosions as it spread and splashed over the heads and bodies of the workmen nearby.

PHONE COMPANY SUFFERS.

The Late Storm Did Great Damage to Southern Bell Lines.

Atlanta, Feb. 13.—The loss of the Southern Bell Telephone company, as a result of the storm, is estimated by the officials of that company to be between \$110,000 and \$137,000, \$10,000 to \$12,000 covering the damage in Atlanta, and \$100,000 to \$125,000 on the long distance lines.

The damage in dollars and cents will equal that of 1905, when 4,000 telephones were rendered useless by the fury of the storm. In the city the damage is not so great as it was then, but it is heavier on the toll lines, making the total reach that of three years ago.

The greatest disaster outside the city occurred on the long distance pole line to Augusta, which went down in countless places.

YOUNG MAN SUICIDES.

Borrowed Pistol and Sent Bullet into His Heart.

Atlanta, Feb. 13.—For no apparent reason Walter McCullough, son of J. T. McCullough, a resident of Oakland City, Tuesday afternoon at 1 o'clock borrowed a pistol from a neighbor and a few seconds later shot himself in the heart in front of his home.

Young McCullough was just eighteen years old, and had been in perfectly sound condition, both mentally and physically.

None of the members of the family can assign any reason for the act of the young man.

BUYERS CROWD NEW YORK.

Evidence of Returning Prosperity Say Merchants of City.

New York, Feb. 13.—More than three thousand buyers and business men from all over the country are now in New York with orders for goods of every variety for the spring and summer trade.

The great influx of buyers was expected by the jobbers here and is said by merchants to be an evidence of the return of confidence throughout the entire country.

Every hotel in New York that caters to the commercial trade is crowded and New York merchants are in a joyous mood at the prospect of an enormous spring trade.

POLITICAL ANNOUNCEMENTS

FOR MARSHAL.

To the Voters of Gainesville—I take this method of announcing my candidacy for Marshal of the City of Gainesville. I have been on night work as an officer, protecting you and your interests while you were asleep, for about three years, and leave it to you as to whether I have performed my duty well, and with impartiality. I think I have been long enough at night work to be entitled to a day job, and if elected I promise you a faithful, impartial and efficient service. Yours for order, C. L. KITE.

I take this method of announcing my candidacy for re-election as City Marshal at the election April 14th, 1908. I have endeavored to perform my duty without fear or favor, and would appreciate the support of my fellow-citizens, promising the same attention to the duties of the office in the future as in the past. Thanking you for past support, and soliciting your votes at the coming election, I am, Very truly, BEN T. ARNOW.

I hereby announce myself a candidate for City Marshal in the election to be held on the 14th day of April, 1908. I promise if elected to endeavor to do the duties required by the ordinances as near as I possibly can, and I solicit the votes of all law-abiding citizens. Respectfully, CHAS. PINKOSON.

NOTICE.

To All Creditors, Legatees, Distributees, and All Persons Having Claims Against the Estate of F. E. Williams:

Notice is hereby given that I will apply to the Hon. H. G. Mason for final discharge as Administratrix on the first Monday in May, A. D. 1908. IDA D. WILLIAMS, Administratrix.

Who Pays For Your Printing?

Poor printing is a detriment to any business, and is an unprofitable investment. Poor printing is usually paid for twice—once when you settle with the printer, and again in the injury it does your business.

GOOD PRINTING PAYS FOR ITSELF!

In the added business it brings, in the complete satisfaction you feel in sending out neat, tasty stationery, and its first cost is soon on the credit side of the ledger. Good printing is remembered long after the price is forgotten.

A STRENUOUS RULER.

Daring, Coolness and Bravery of James IV. of Scotland.

One of the interesting characters of history is James IV., king of Scotland from 1473 to 1513. He was athletic, courageous and fond of adventure. In putting down insurrections and improving the criminal administration of the country he was foremost in the ranks and did not shun a hand to hand contest. He married a daughter of Henry VII. of England and made a treaty which secured peace between the two countries. He labored to build up a navy and develop commerce and showed skillful diplomacy in dealing with other nations. He was killed in battle at Flodden, where his army was disastrously defeated by Henry VIII.

Those were strenuous times, when it was necessary for a king to be a fighter and to inspire his obstreperous subjects with some degree of terror. King James used often to go about the country in different disguises, not only because he loved adventure, but because he could thus secure information on the state of the nation at first hand.

It is related of the vigorous Scottish king that once when wandering through the hills during the night he was overtaken by a violent storm and was obliged to take shelter in a cavern near Wemyss, which is one of the most remarkable antiquities of Scotland. Having advanced some way in, the king discovered a number of men and women ready to begin to roast a sheep for supper. From their appearance he suspected that he had fallen into evil company, but as it was then too late he asked hospitality from them till the tempest was over. They granted it and invited the king, who was unknown to them, to sit down and join them at supper. They were a notorious band of robbers and cutthroats, and this fact soon dawned upon James.

As soon as they had finished their supper one of them presented a plate on which two daggers were laid in the form of a St. Andrew's cross, telling the king that this was the dessert they always served to strangers; that he must choose one of the daggers and fight him whom the company selected as his antagonist. The king, realizing that he was to be murdered, instantly seized both daggers, one in each hand, and plunged them into the hearts of the two robbers nearest to him. He then dashed out of the cave and made his escape, returning as soon as possible with a body of soldiers, by whom the whole band was arrested and publicly hanged.—Punxsutawney Spirit.

A BRAHMS ANECDOTE.

The Man Who Spoiled an Evening For the Great Composer.

Among the Brahms anecdotes which are popular in Germany this one was contributed by Frau Luise Pohl. Brahms liked Baden-Baden and took as much pleasure in a winter visit to the place as in the crowded summer time. The residents knew this when they invited him in 1876 to come and direct some of his works. After the concert the friends of the master assembled at Goldenen Krans by invitation of the oberbürgermeister ganner to "drink a glass of wine." The session lasted long, but gradually the company grew smaller. Presently they had all gone except Brahms and Cornelius Rubner. After awhile even Brahms suggested home, and his young companion eagerly agreed to adjourn the session. On the way home Brahms asked his companion, whose name he had not heard, "By the way, do you know this young director Rubner?"

"Are you interested in him?" he asked by way of answer.

"Certainly. Adolf Jensen thinks he is not only great, but genial. Don't you know him?"

"I know him very well. He is an arrogant, conceited fellow, who can do nothing and knows nothing."

The pleasure of the evening was spoiled by this harsh opinion as to a man whom Brahms had made up his mind to like. The next morning he attended, with some others, a breakfast at Jensen's, where he told the story. He had hardly finished when the door opened and Rubner walked in.

"That's the man who slandered your friend," said Brahms, and when everybody laughed he suspected what was told to him as soon as the first man recovered.

A Doubtful Assertion.

Browne—They say that drowning men catch at straws.

Towne—Yes, but I doubt it. I've seen a number of men drown, and those of them who had any preference at all seemed in favor of a plank. In fact, I do not now recall ever having been asked for a straw by a person who was drowning.—New York Journal.

Extravagant.

Kind Lady—If I give you this penny what will you do with it? Beggar—Hire a motor cab and show me friend Rugby the town, ma'am.—Illustrated Bits.

Conceit may puff a man up, but never keeps him up.—Rushin.

THE SHOEMAKER'S ART.

It Has Been Known Since the Earliest Days of Civilization.

A few winters ago I passed a day among the wonderfully decorated tombs in the cemetery of what was once Memphis, upon the western bank of the Nile, writes Julius Chambers in the Brooklyn Eagle. One of the show places is the remarkable underground palace that the illustrious Queen Ti of the fifth dynasty (i. e., about 4,500 years ago) constructed for her final resting place. It consists of a great court 40 by 60 feet, as I remember, and several other apartments, besides the mummy chamber, which is reached by a stairway leading down from the largest room. Upon the walls of this tomb are the best preserved pictures to be found in all Egypt, and among them are the figures of two artisans working upon coverings for the feet.

Therefore, makers of shoes, I salute you! More than 4,000 years before the art of printing had practical existence, although you will admit that the decorator of Queen Ti's tomb was almost a publisher, your art was recognized, respected and immortalized.

The natural impulse of mankind is to go barefoot. Every reader can remember youthful days in which the greatest possible pleasure was embodied in a run through the woods or along the shore unshod. Very well can I recall the secret spot in the barn in which I was wont to hide my shoes and stockings in order that I might be in the competition for the first stone bruise of the summer. That was the primitive man, speaking up for the faraway days "before we were women and men."

Don't Put Off

Until tomorrow what you can do today. If you are suffering from a torpid liver, or constipation, don't wait until tomorrow to get help. Buy a bottle of Herbine and get that liver working right. Promptness about health saves many sick spells. Mrs. Ida Gresham, Point, Tex., writes: "I used Herbine in my family for six years, and find it does all it claims to do." Sold by W. M. Johnson.

Using the Fire Buckets.

In many business offices fire buckets are placed, filled with water, in readiness for an emergency. It is seldom, says the Scientific American, that instructions for use are placed near the supply. The wrong way to tackle an incipient fire is (usually) to hurl the whole contents of a bucket on the spot. Most of the water is wasted by this means. A heavy sprinkling is more effective. The water may be splashed on the blaze by hand, but a more useful sprinkler is a long haired white-wash brush. One of these should hang beside every nest of fire buckets.

Odd Change.

"Grabbit has given up bank clerking to take a position as a conductor on the electric cars."

"But that's an odd change."

"Odd change? Sure! That's what induced him."—Bohemian.
